

In November last year, Clean & Fresh hosted a big, exciting and much enjoyed party to celebrate their 20th Anniversary. The celebration was held in Köln's beautiful Grand Hotel, Excelsior Ernst, in the shadow of the dramatic spires of Köln Cathedral. Some of their most highly esteemed clients, friends and colleagues joined them to eat, drink, dance and be merry!

The night was a roaring success, catered for wonderfully by the Excelsior hotel staff, with a delicious three course meal and a fabulous atmosphere. Speeches from co-owners Shirley Daglish and Heinz Gabriel were well received by guests, and the night was finished off by an amazing tombola, imparting incredible prizes of hotel breaks all over Europe, and raising €1600 for a wonderful cause! All courtesy of Clean & Fresh's most treasured clients across the continent. We would like to thank all our guests again for attending, and making it a fantastic and absolutely unforgettable night!

Guests showed a great deal of enthusiasm for the tombola for which more than 30 clients of Clean and Fresh had donated vouchers for a weekend stay. The tombola generated the magnificent sum of €1600 in aid of the Kinder Krankenhaus in Köln.

Managing Director, Shirley Daglish & Operations Director, Karl-Heinz Gabriel welcoming guests to the company's 20th Anniversary Party, which was held in the Excelsior Ernst Hotel.

# Hotel Profiles

## Headboards, Upholstery & Mattresses

Clean & Fresh are able to clean any and all types of upholstery fabric, and are guaranteed to remove all stains other than burns and bleaches. This is due to their pioneering steam extraction technique - cutting edge in commercial cleaning.

Clean & Fresh also provide an innovative cleaning treatment for mattresses. Their revolutionary technology not only removes all stains, MRSA, HIV, dust mites, urine and blood, but is also guaranteed for one year. Clean & Fresh hold exclusive rights to a uniquely developed TÜV certificated cleaning agent with deodoriser, placing them at the technological forefront of their field. This treatment is completed using a CFR-3 Filter System, which allows mattresses to be available for use within 3 hours. This means rooms can be used that same day, thus saving on costs. Clean & Fresh regard mattress cleaning to be a crucial part of hotel servicing, and recommend professional maintenance once per year.

Specially developed Ultra Clean No.1 is the product of choice among many hoteliers as you can use the stain removing agent without having to clean the entire item.

## Carpets & Curtains

As with upholstery, Clean & Fresh use innovative technology to remove 95% of all stains on carpets (excluding only burns and bleaches), enabling them to dry in just 2 to 3 hours.

A specialist curtain cleaning service has also been developed by Clean & Fresh where all curtains (whatever the fabric), hanging up to 10 metres can be cleaned in situ. A dry filter system with hot water steam is used, and the curtains are then treated with a cleaning agent specifically designed for fabric cleaning and protection. After treatment, curtains will take only 2-4 hours to dry. Net curtains can also be washed on site.

**We also offer a Specialist Payment Scheme, please get in contact for more information.**
